Toribio-School
Mitchell-Training Conference
Scaggs-Investigations
De Leon-School
Vanderveen-Work Coverage
S. Valenzuela-Work Coverage

Nature Of Training:

Due to the availability of the Salinas Police Range only available after 1300 hours and due to staffing, training on this day was started at 0700 hours. During the first half of the training day, the Salinas SWAT Team trained at the CTF Prison Range and handgun, and rifle standards were conducted. Shooting on the move drills were conducted as well as room entries with hostage scenario targets.

The second half of the day, the Salinas SWAT Team trained at the Salinas Police Department indoor range. Team members will be able to properly deploy and use their night vision optics, visual and IR lasers. Training exercises focused on movement and target identification with visual green laser and IR laser in dark conditions.

Rifle standards were conducted in dark conditions.

Summary Of Training

Training hours:

0700-1200: CTF Range-Handgun Standards, Rifle Standards, shooting on the move drill, offset drills and accuracy drills.

1230-1400: Lunch and travel time to Salinas PD Range

1400-1530: Night Vision Goggle Nomenclature and adjustment/Laser and IR Adjustments

1530-1630: Firearm standards in dark conditions

1630-1730: Firearm Maintenance

Evaluation/Recommendations:

With the availability of the Salinas Police indoor range and the ability to train in dark conditions. Recommendation to conduct standards with rifle in dark conditions should be conducted more than once a year. Also, firearm drills should be conducted in dark conditions more than once a year, as the Salinas Police SWAT team often operates in dark conditions when there is pre-planned operations such as search warrant services.
