**Nature Of Training:**

The training day began with day handgun standards on the move. All Officers performed proficiently with their handgun with the given shoot and times. We then moved on to day rifle qualifications which were also done on the move.

After the standards were completed, we began to incorporate drills. The initial drills were intended to focus on movement forward and backward direction. After the first drills we moved to a drills that focused on lateral movement.

Once the fundamental shooting was completed, we focused on engaging multiple targets, while moving. We also conducted drills which involved team members moving together and engaging several threat targets.

**Summary Of Training**

Training hours:  
0700 Start time  
1600 end time  
1600-1740 weapons maintenance

**Recommendations:**

Continue to train shooting on the move. Improve proficiency while moving, shooting, and communicating. Over the team performed well and worked very hard during training.
